TO YIN YU

Software Developer | Full-Stack Web Applications

Lynnwood, WA (Seattle area) | US citizen

(206) 712-5144 | tonyx1998@gmail.com | toyinyu.com | linkedin.com/in/to-yin-yu | github.com/tonyx1998

SUMMARY

Software developer building full-stack web products, realtime voice tools, and client booking systems with TypeScript, React, Next.js, and Python. B.S. in Computer Science, University of Maryland; based near Seattle and open to relocation.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Frontend: React, Next.js, HTML/CSS, Tailwind CSS

Backend and APIs: PostgreSQL, REST APIs, OAuth, WebRTC

Tools: Git, Vercel

EXPERIENCE

Independent Software Developer | 2024 - Present

ViralSignal | Reachspan product | Full-stack development

Reachspan product | viralsignalapp.com

TypeScript, React, Next.js, PostgreSQL, OAuth

- Built the full-stack application for Reachspan's ViralSignal, integrating Threads search, AI-assisted relevance assessment, reply/post generation, and persistent draft workflows.
- Implemented OAuth account linking, PostgreSQL row-level security, and idempotent credit grants, with automated tests for authentication, billing, and failure recovery.

SoloMock - Realtime Voice Interview Workspace

Independent product | 2025 | solomock.com

Next.js, TypeScript, OpenAI Realtime API, WebRTC, Monaco

- Built a browser-based interview workspace combining live voice and a Monaco editor; streamed debounced code snapshots over WebRTC so the interviewer responds to speech and code.
- Issued temporary session credentials and added rate limits, session-duration controls, and a manual workflow for extended access.

Gasolytics - Gas-Price Map and Fuel Comparisons

Independent product | 2026 | gasolytics.com

Next.js, React, TypeScript, d3-geo, Vercel Blob

- Rendered an interactive U.S. gas-price map as server-generated SVG with d3-geo; added metro pins, zoom, pan, and state detail panels.
- Built trip-cost and EV-versus-gas comparison tools using AAA price snapshots; served price data through an in-process cache for state and metro views.

EDUCATION

University of Maryland, College Park

Bachelor of Science, Computer Science | December 2022
